About Me

Hello, my name is Lexxel Silivan and I'm currently a student at Saint Paul College working on my AAS degree in visualization technology. I'm familiar with using some Adobe products and general knowledge with blender and html. I really wanted to go into video editing and graphic design. I love editing videos and I have a YouTube channel where I make guitar covers. I hope that someday I get more experience with video editing and making graphic design art.

Skills

Adobe Premiere Pro [9/10](#) - Adobe Illustrator [9.5/10](#) - Adobe Photoshop [7/10](#) - Adobe InDesign [7/10](#)
